

# Turn your TAXES into SCHOLARSHIPS for students in need!

By directing your tax dollars to the VA Education Improvement Scholarships Tax Credits (EISTC) program, eligible families can receive a scholarship to attend the school of their choice.

## How does it work?

The Virginia EISTC program allows individuals and businesses to contribute to approved scholarship foundations, which then provide scholarships to low income students for private education. In return, donors receive a 65% Virginia state tax-credit on their contribution.
